

At DOME Immersions, our concept has been thoughtfully curated around three foundational pillars of wellness: **Nature, Physical, & Intensive Immersions**. Every detail is designed to nurture, empower, and renew—so that each guest departs not just restored, but equipped with the tools and inner resilience to carry wellness into their daily lives.

A New Spa Language

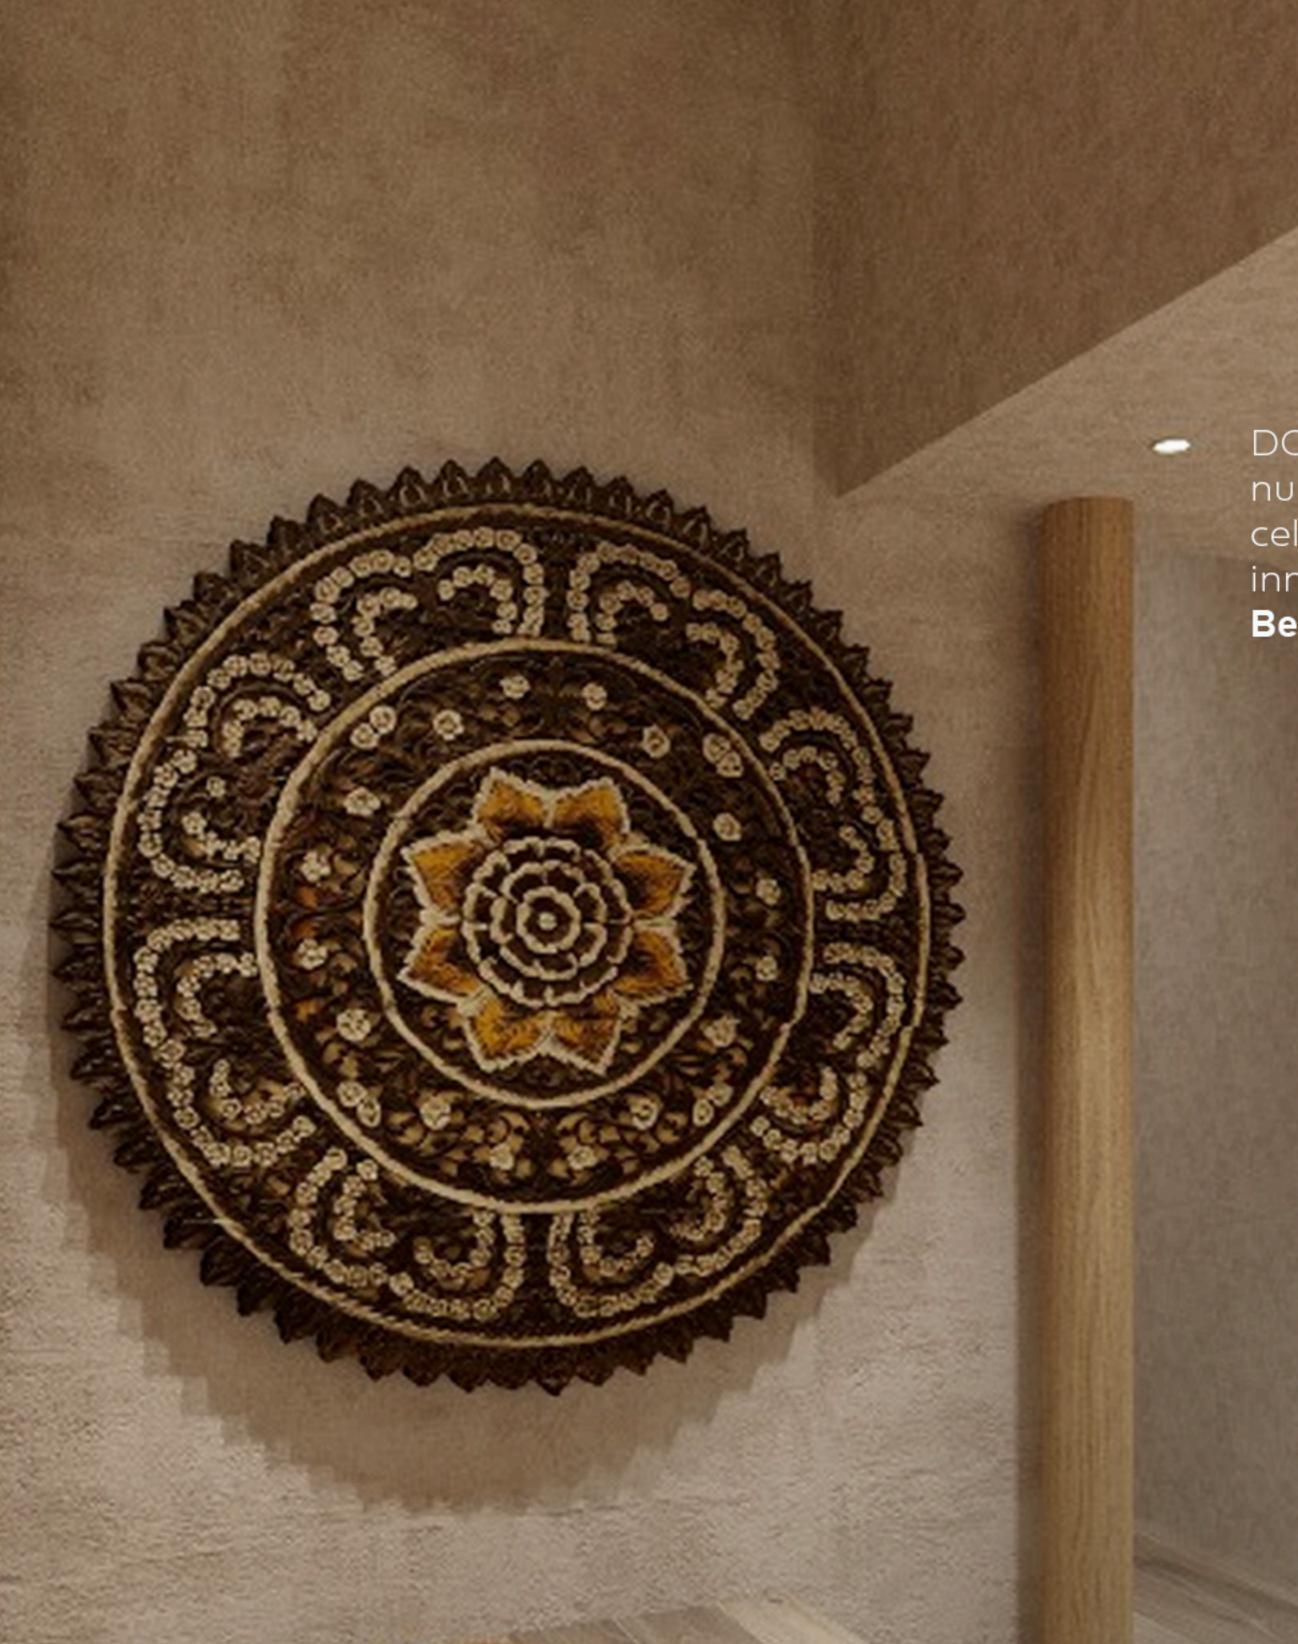

We invite you to explore a new conversation around self-care, inspired by the ancient wisdom of chakras, energy, and holistic healing. These philosophies offer a fascinating lens for understanding how our bodies and minds function. While you don't need to be fluent in these traditions to feel their benefits, we are passionate about de-mystifying their meaning. If you're curious about the ingredients, rituals, or techniques woven into your treatment, our team is always happy to share more.

Understanding Energy

The flow of vital life force—called "qi" in Traditional Chinese Medicine and "prana" in Ayurveda and yogic philosophy—is a universal foundation of many healing arts. These traditions teach that blockages, whether physical, mental, or emotional, can disrupt our energy and well-being. Releasing these blockages and restoring flow is the heart of our practice at Dome Immersions, where every treatment is crafted to encourage deep balance and holistic vitality.

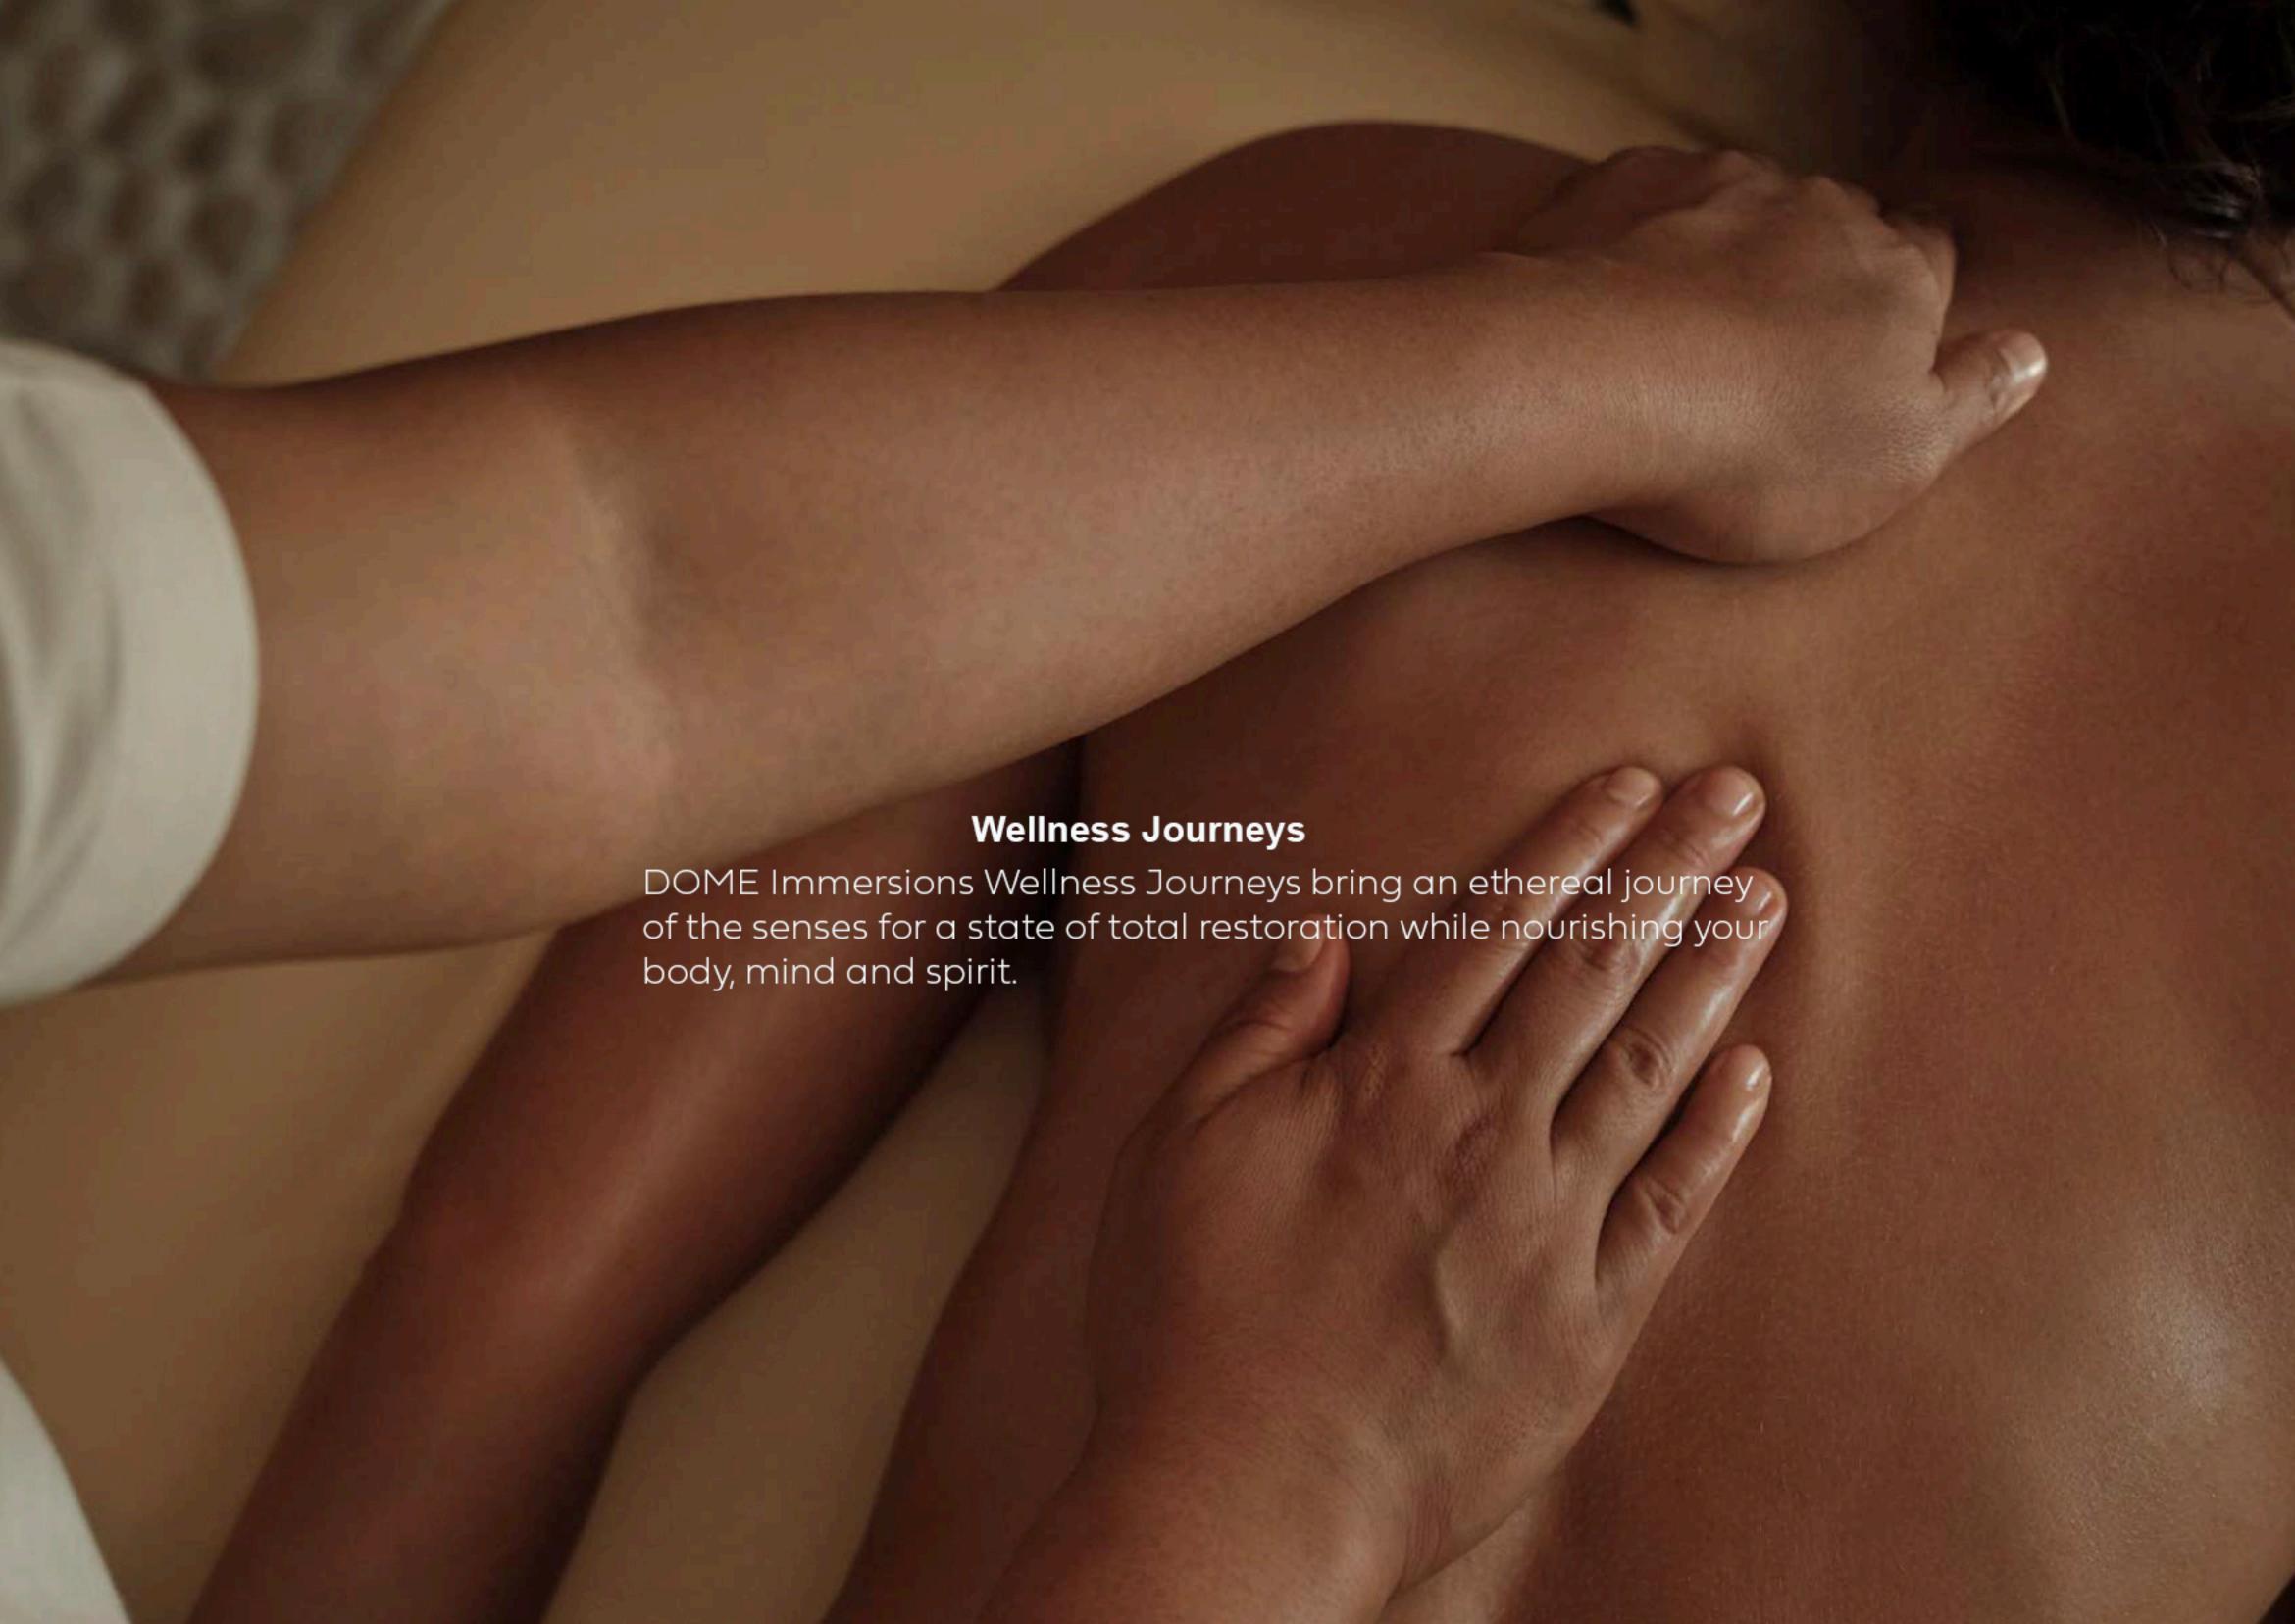

Signature Tranquil Foot Ritual

Your journey begins with a foot ritual, a moment of relaxing and grounding that prepares both body and spirit for renewal.
